**DETAILED ACTION*****Allowable Subject Matter***

Claims 1-15 are allowed.

The following is an examiner's statement of reasons for allowance:

Connector plugs for optical plug-in connections are well known in the art. Chudoba et al (US 5,818,993) is a prior art that has the closest structural similarities to the claimed device, as currently recited in the instant application.

As shown in Fig. 3 of Chudoba reference reproduced above, a “cable receiving section” having two cladding parts that are pivoted at joints such that the cladding parts can be pivoted between open and close positions, is known in the art. However, Chudoba does not disclose the use of an optical waveguide having a welded location, and more importantly Chudoba (as well as any known prior art) does not teach a protective sleeve comprising two protective sleeve shells that are disposed around a welded location of the optical waveguide, in which the protective shells are arranged within the cable receiving section as claimed in the instant application.

Art Unit: 2874

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
